

## **Vijay Kumawat**

- Phone: 8005623771
- Email: iamvjkumawat@gmail.com
- Location: Jaipur, Rajasthan, India

## **Professional Summary**

- Penetration Tester with more than 3 months of Corporate Experience with a bachelor's degree in computer science.
- Completed several courses on web application Pentesting, Active Directory Pentesting, API Pentesting and Network Pentesting.
- Eager to Learn in-depth and contribute to the security of organizations.
- I believe in having strong foundation in any field along with that I am a quick learner and executor.
- Portfolio link: <https://vijaykumawat02.github.io/Portfolio/>

## **Work Experience**

- VAPT Intern at SecLance, April 2024 – May 2024
  - Conducted VAPT and reporting:
    - Web Applications
    - APIs
  - Solved Portswigger labs with Reporting:
    - Web Application Pentesting
    - API Pentesting
- IT Research Intern at Contenttopper, Sep 2023 - Nov 2023
  - Performed Security Research on various fields like
    - Web Application Security
    - Active Directory
    - API Hacking
    - Network Penetration Testing
  - Used Platforms such as Google Dorking, Bing AI, Bard AI, Portswigger, and tryhackme to conduct Security Research
  - Documented findings and recommendations in reports and presentations
  - Learned best practices and methodologies from Research
- Port Scanner Project, Sep 2023
  - Developed and executed a Python 3-based port scanner, using multithreading
  - Accelerated target's open port identification and listing process by 40%, enhancing network security
- Subdomain Scanner Project, Sep 2023

- Developed and executed a Python 3-based tool that efficiently identifies and lists subdomains
  - Enhanced domain management and saved valuable time for Penetration Testing
- Tryhackme: <https://tryhackme.com/p/rootcyborg/>

## **Skills**

- Technical Skills:
  - Web Application Pentesting
  - Active Directory Pentesting
  - API Pentesting
  - Network Security
- Tools and Frameworks:
  - Metasploit
  - Burp Suite
  - Nmap
  - Nessus
  - Fortify/Web Inspect
- Programming Languages:
  - Python
  - C
  - C++

## **Education**

- Bachelor of Computer Applications (BCA), Sri Balaji P. G. Mahavidyalaya, 2023
- 4 years of Information Technology (IT) Level-4 Diploma, Govt Sr. Sec. School, 2020
- Relevant coursework:
  - Web Application Pentesting
  - Active Directory Pentesting
  - API Pentesting
  - Python
  - OWASP Top 10
  - Networking
  - Linux
- Certifications:
  - Certified AppSec Practitioner (SecOps)
  - CompTIA Pentest+ (Tryhackme)
  - Web Fundamentals (Tryhackme)
  - Website Hacking Techniques (EC-Council)
  - Ethical Hacking Essentials (EC-Council)
  - Advent of Cyber 2022 (Tryhackme)
  - Be a white hat hacker (Eduonix)

- Pre Security (Tryhackme)
  - Introduction to Cybersecurity (Tryhackme)
- Courses:
  - Practical Ethical Hacking (PEH) TCM Sec.
  - Practical Web Application Security and Testing (TCM Sec.)

## **FOCUS AREAS**

- Web Application Penetration Testing
- API Penetration Testing
- Active Directory Penetration Testing
